

AUSTRIAN ART ALUMNI AWARD

Austrian Art Alumni Award 2026

Deadline | 24 March 2026, 11:00 h

Aims

In order to ensure Austria's status in the arts and culture, the award aims to support particularly outstanding graduates from the art universities while they start their artist careers. With this objective, the public art universities, in cooperation with the Federal Ministry of Science, initiate the "A4 - Austrian Art Alumni Award" program, which grants scholarships to six graduates with excellent study background per year, to be awarded across the participating universities.

During their funding period, grant holders must implement a relevant art project, which they may realize in Austria or abroad.

Target group

Eligible candidates are recent graduates from a diploma or master's degree program from one of the six public art universities in Austria* who completed their studies no longer than 18 months before the call (cut-off date see below).

*Academy of Fine Arts Vienna, University of Music and Performing Arts Graz, Mozarteum University Salzburg, University of Arts Linz, University of Applied Arts Vienna, mdw-University of Music and Performing Arts Vienna

Award benefits

The award sum is EUR 2,000 per month per scholarship for a period of 12 months (the overall funding amount is EUR 24,000 per person). Installments are made quarterly by the Academy of Fine Arts Vienna.

Application terms and conditions

- Completion of a diploma or master's degree from a public Austrian art university. The date of completion must be no longer than 1 July 2024. At the date of submission, proof of graduation must be provided by your diploma certificate.
- Excellent study performance, in fulfillment of the university regulations in effect at the respective university (see Application → „Required documents“)
- Austrian citizenship or citizenship of an EEA country (including Switzerland) or equivalent third-country nationals and stateless persons (according to § 4 Para. 1 StudFG). Candidates who do not meet these criteria are eligible for a scholarship if their place of residence is documented in Austria from the beginning of their studies until application submission.

- Maximum age for eligible applicants is 35 (year of birth 1991 or later). If there are verifiable reasons (e.g. changing course of study, care responsibilities, etc.) that make fulfillment of this requirement impossible, the jury decides whether to consider the application.
- A letter of recommendation for the applied project must be submitted, issued and signed by the applicant's artistic supervisor of their final thesis.

Allocation

The scholarship is allocated by nine jury members. Each art university holds one vote, whereas the Federal Ministry of Science appoints one jury member. Two external, independent experts nominated by the art universities are further appointed as jury members.
