

## VPN Tutorial (MacOSX)

The VPN (Virtual Private Network) allows encrypted access to the IT infrastructure of the Academy of Fine Arts Vienna over insecure networks such as a public WLAN. To establish such an encrypted tunnel you need to install VPN-Software on your client.

### **Download VPN-Software**

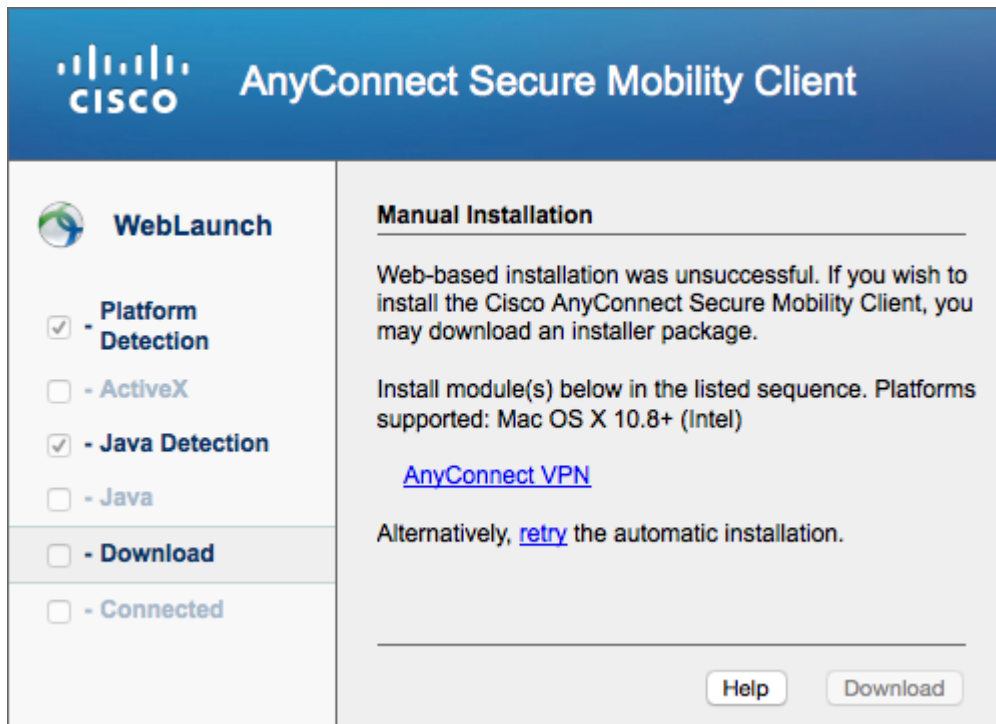

The VPN-Software can be downloaded under <http://vpn.akbild.ac.at>

For this, the user has to log in to the VPN Administration page with his campus credentials.

The screenshot shows a web interface for the Cisco SSL VPN Service. At the top left, there is a blue header with the Cisco logo and the text "SSL VPN Service". The main content area is white and contains a central login window. The login window has a title bar with a key icon and the word "Login". Inside the window, it says "Please enter your username and password." Below this, there are three input fields: a dropdown menu for "GROUP:" with "AKADEMIE" selected, a text box for "USERNAME:", and a text box for "PASSWORD:". At the bottom of the window is a "Login" button.

A window for manual installation will be displayed. By clicking on **AnyConnect VPN** you can download the software.

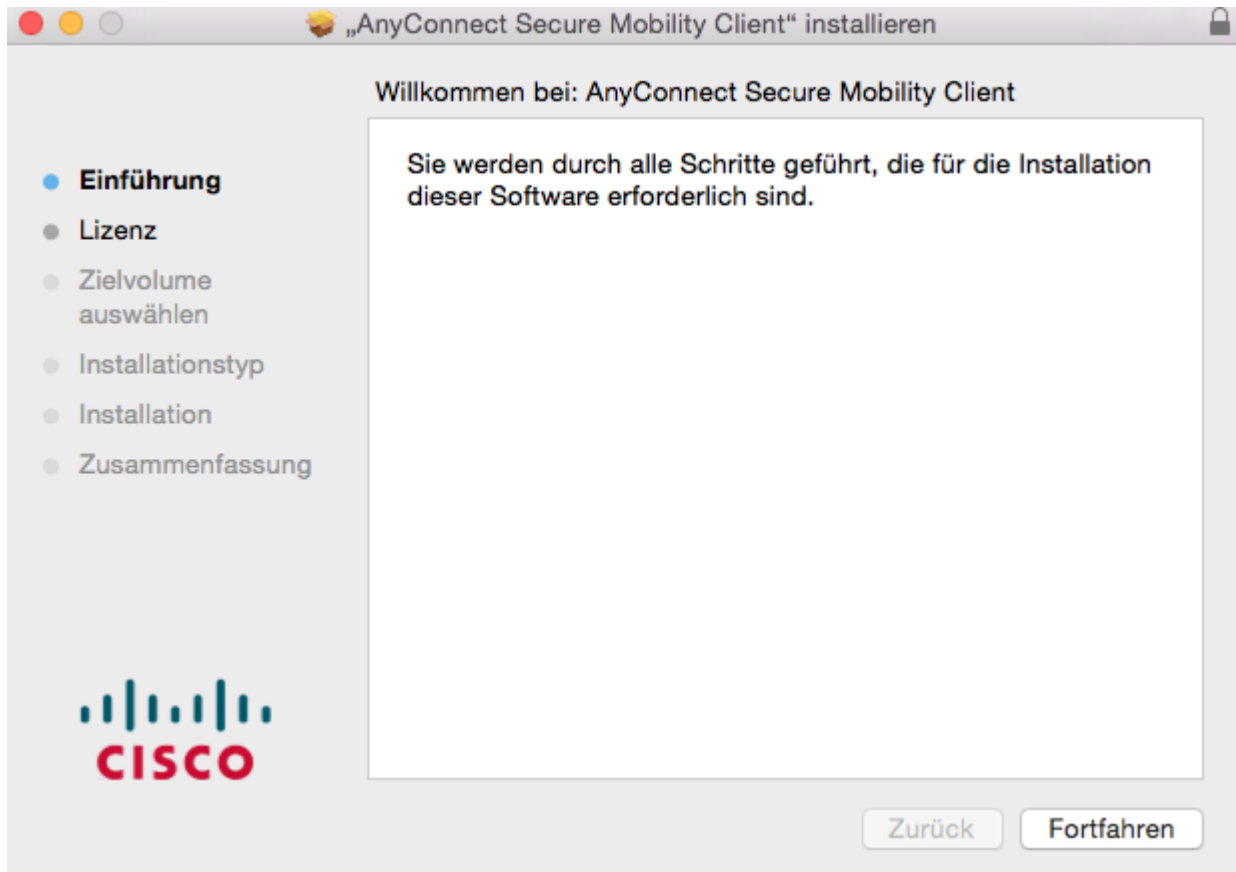

## ***Installation VPN Software***

**Notice:** You must have administrator rights on the computer to be able to perform the installation.

Run the downloaded file (located in the download folder).

Click "Next" in the Setup Wizard to get to the next installation step.

Click „Fortfahren...“ in the next windows and then “Akzeptieren” to accept the License Agreement.

The screenshot shows the installation window titled „AnyConnect Secure Mobility Client“ installieren. On the left is a navigation menu with items: Einführung, Lizenz (highlighted), Zielvolumen auswählen, Installationstyp, Installation, and Zusammenfassung. The Cisco logo is at the bottom left. The main content area is titled „Softwarelizenzvertrag“ and contains the following text:

**Supplemental End User License Agreement for AnyConnect® Secure Mobility Client v4.x and other VPN-related Software**

**IMPORTANT: READ CAREFULLY**

This Supplemental End User License Agreement (“SEULA”) contains additional terms and conditions for the Software Product licensed under the End User License Agreement (“EULA”) between You (“You” as used herein means You and the business entity you represent) and Cisco (collectively, the “Agreement”). Capitalized terms used in this SEULA but not defined will have the meanings assigned to them in the EULA. To the extent that there is a conflict between the terms and conditions of the EULA and this SEULA, the terms and conditions of this SEULA will take precedence.

In addition to the limitations set forth in the EULA on your access and use of the Software, You agree to comply at all times with the terms and conditions provided in this SEULA. DOWNLOADING, INSTALLING, OR USING THE SOFTWARE CONSTITUTES ACCEPTANCE OF THE AGREEMENT, AND YOU ARE BINDING YOURSELF AND THE BUSINESS ENTITY THAT YOU REPRESENT (COLLECTIVELY, “CUSTOMER”) TO THE AGREEMENT. IF YOU DO NOT AGREE TO ALL OF THE TERMS OF THE AGREEMENT, THEN CISCO IS UNWILLING TO LICENSE THE SOFTWARE TO YOU AND (A) YOU MAY NOT DOWNLOAD, INSTALL OR USE THE SOFTWARE, AND (B) YOU MAY RETURN THE SOFTWARE (INCLUDING ANY UNOPENED CD PACKAGE AND ANY WRITTEN MATERIALS) FOR A FULL REFUND, OR, IF THE SOFTWARE AND WRITTEN MATERIALS ARE SUPPLIED AS PART OF ANOTHER PRODUCT, YOU MAY RETURN THE ENTIRE PRODUCT FOR A FULL REFUND. YOUR RIGHT TO RETURN AND REFUND EXPIRES 30 DAYS AFTER PURCHASE FROM CISCO OR AN AUTHORIZED CISCO RESELLER, AND APPLIES ONLY IF YOU ARE THE ORIGINAL END USER PURCHASER.

For purposes of this SEULA, the product You have ordered or enabled is any of the following

At the bottom are buttons: Drucken ..., Sichern ..., Zurück, and Fortfahren.

The screenshot shows the same installation window as above, but with a dialog box overlaid. The dialog box contains the following text:

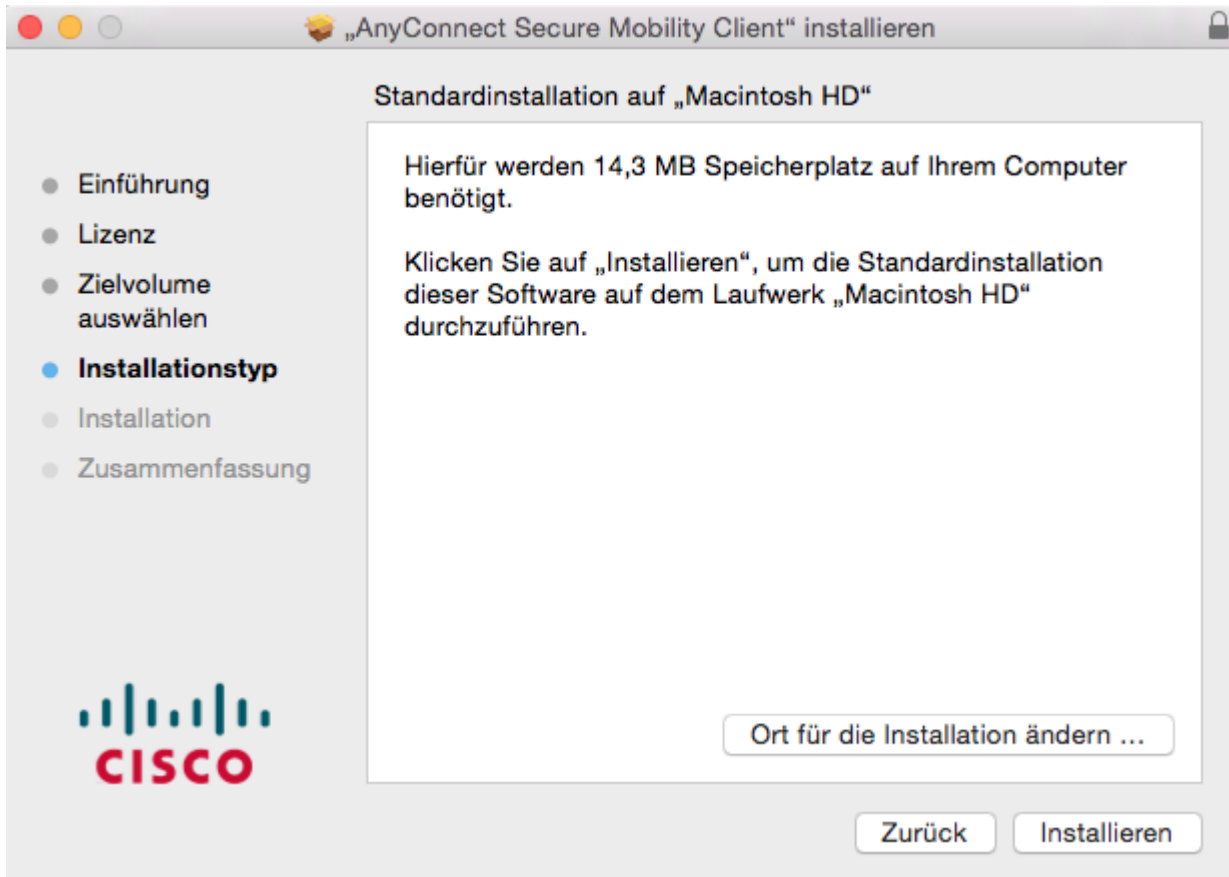

**Um mit der Installation der Software fortzufahren, müssen Sie den Softwarelizenzvertrag akzeptieren.**

Klicken Sie auf „Akzeptieren“, um mit der Installation fortzufahren.  
Klicken Sie auf „Ablehnen“, um die Installation abzubrechen und zu beenden.

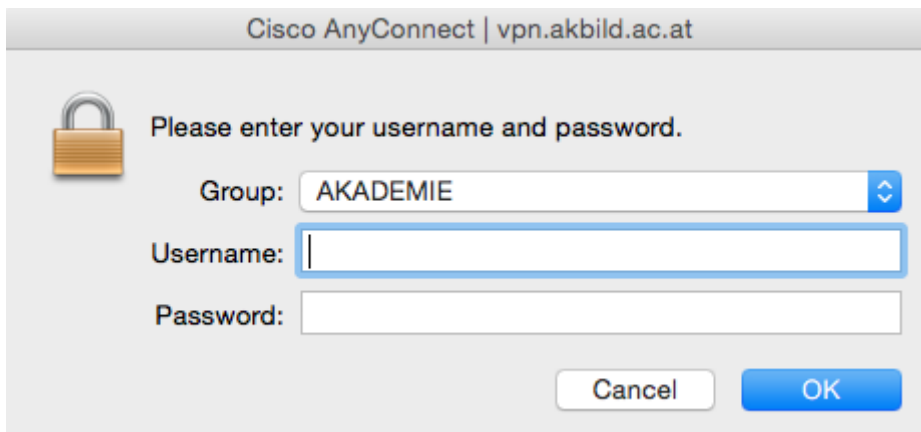

At the bottom of the dialog box are buttons: Lizenz lesen, Ablehnen, and Akzeptieren.

The background window is partially visible, showing the same content as the first screenshot.

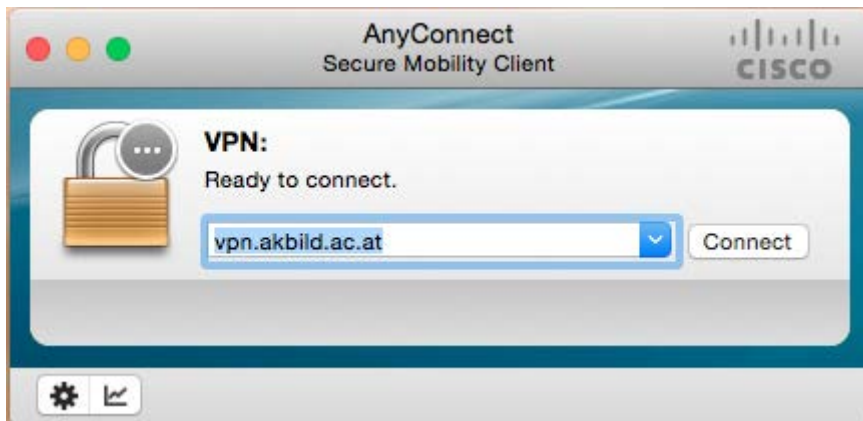

Then click „Install“ to start the installation.

After a successful installation, the software can now be found via the spotlight search and is named "Cisco AnyConnect Secure Mobility Client". Start the program and log in with your user name and password.

As address please enter **vpn.akbild.ac.at**. Click “Connect” to establish a connection to the academy network.

In order to disconnect, click the Cisco AnyConnect-symbol in the top right menu bar and then click „Disconnect“.
